EX-PRES. CLEVELAND DEAD

Sudden Death of Former President
Occurs at Princeton, N. J.—Na-
tion in Mourning.

Princeton, N. J., June 24.—Grover Cleveland, twice President of the United States, died at 8:40 this morning at his home, "Westland," in this quiet college town, where he had lived since his retirement as the Nation's Chief Executive, almost twelve years ago.

When death came, which was suddenly, there were in the death chamber on the second floor of the Cleveland residence, Mrs. Cleveland, Dr. Joseph D. Bryant of New York, Mr. Cleveland's family physician and personal friend; Dr. George R. Lockwood, also of New York and Dr. John M. Carnochan of Princeton.

The official statement given out and signed by the three physicians gave heart failure, superinduced by stomach and kidney ailment of long standing, as the cause of death.

End Unexpected.

While Mr. Cleveland had been in poor health for the two last years and had lost a hundred pounds in weight, his death came unexpectedly. Some three weeks ago he was brought home from Lakewood, where his condition for a time was such that the hotel at which he was staying was kept open after its regular season because he was too ill to be moved. But when Mr. Cleveland was brought back to Princeton he showed signs of improvement and actually gained five pounds in weight.

Although confined to his room continually after his return to Princeton, it was not until yesterday that Mr. Cleveland's condition aroused uneasiness on the part of Mrs. Cleveland.

Affected by Heat.

Undoubtedly affected by the heat, Mr. Cleveland showed signs of failure, and Mrs. Cleveland telephoned to Dr. Bryant, who came over from New York, on the train, arriving here at 4:24 p. m. Dr. Lockwood followed Dr. Bryant from New York and when they reached here Dr. Carnochan, who had been Mr. Cleveland's local physician since the former president came to Princeton, was also called in.

During the evening Mr. Cleveland seemed to rally, and Mrs. Cleveland, who always has been optimistic June 19, 1905, about her husband's health, felt assured that it was merely another

of the many attacks Mr. Cleveland had suffered, and she informed those who inquired that Mr. Cleveland's condition was not serious.

His Passing Peaceful.

Mr. Cleveland became worse during the night, and Mrs. Cleveland was called to the bedside of her husband. The distinguished patient sank into unconsciousness from which he recovered at times only to suffer relapse. This continued throughout the night and early morning. The last time he became unconscious was about two hours before he died. Death was peaceful. Just before he died Mr. Cleveland sought to say something but his words were inaudible.

Epitomized Life of Grover Cleveland.

The following is a summary of the life of Grover Cleveland:

Born in Caldwell, Essex County, N. J., March 18, 1837.

Received an academic education at Fayetteville and Clinton, the latter in Oneida county, New York.

Father died in 1853 and he went to New York and was bookkeeper and teacher in institute for blind.

Moved to Buffalo in 1855. Became clerk in law office and was admitted to the bar in 1859.

Assistant district attorney Erie county 1863-1866.

Sheriff Erie county in 1870-1874.

Elected mayor of Buffalo in 1881.

Elected governor of New York the following year.

Broke all records in vetoing 115 out of 987 bills.

Married Frances Folsom in the White house June 2, 1886.

During his term Washington, Montana, North Dakota and South Dakota were admitted to statehood.

Was nominee for same office in 1888, but was defeated by Benjamin Harrison.

Again elected president in 1892. Settled Venezuela boundary dispute in 1895.

Retired to private life, but always was prominent in movements for public welfare.

Elected trustees Equitable Life Assurance Society of United States land, who always has been optimistic June 19, 1905.

Died at his home in Princeton, N. J., June 24, 1908.

GOVERNOR FRIEND TO POOR

Two Letters---From Two Men---One
to the Other---Tells an Impres-
sive Tale.

All the people of this section, through which the rails of the Oklahoma Central lie and over which an occasional train passes, are informed that this railroad has lately gone into the hands of a receiver and that in the manner of the appointment of the receiver, there was some confusion regarding the rightful authority as between the State of Oklahoma and the federal courts.

The history of the past in this section inclined the people to believe that before the federal courts their rights were always subject to clear usurpation when the financial interests of predatory corporations were involved. The history of the administration of the affairs of this state by a democratic governor must incline the people to believe that before the governor of this state, to the fullest extent of his authority, their rights would be conserved against the encroachment of predatory wealth or corporate interests engaged in sharp practices. It is thought that the citizens of this district have always regarded the Hon. Dorset Carter and Judge Fletcher Sharp of Purcell builders and president and general attorney for the Oklahoma Central

with general confidence. The News maintains high personal regards for each of them. It is regretted here that the clash of authority between the state and the federal courts in the matter of the appointment of receiver that there should exist cause or that it should appear to the governor that there were afforded grounds or that the facts in the case called for public expressions and acts from him which likely are

NEWS ENDORSED.

Wednesday's News contained an article of news in part explanatory of the law lately passed by the legislature creating an under officer of the county court, the duties of which involved probate jurisdiction and information of the fact that Mr. Tom Holt, present city attorney of Ada having accepted such office and having entered on the duties thereof. There was included in this general news article some editorial afterthought which was regarded highly pertinent as referred to the interest and welfare of the city and county, especially of the city. The timeliness of the remarks of the News agent the dual office holding capacity of Mr. Holt has been emphasized through voluntary expressions of numbers of the citizens in approval of the News' view. It is not too much to assert that conscientious public opinion is shocked in its consideration of him whose regards for the proper performance of public duty appears to be measured rather by the number of offices he can dignify by their occupancy and the emoluments attached thereto, rather than by an appreciation of confidence of the public bestowed and the consciousness of duty well performed, than which truly there is not greater emolument in or out of office.

GOVERNOR FRIEND TO POOR

offensive to Messrs. Carter and Sharp.

The News believes that the governor, when he engaged his attention to the matter of the application of the bondsmen for a receivership, was actuated only by honorable motives when he caused the state to offer interference. On account of the distortions of a republican press in their dissemination of the alleged facts connected with this receivership, the News hereunder publishes two letters, one from Ben Byers of Lehigh, directed to Governor Haskell and one being the return answer of the governor to Mr. Byers.

Honorable Governor, Guthrie, Okla.

Your Honor:—I have read an article in the Daily Oklahoman of June 2nd that you are taking a hold on the receivership of the Oklahoma Central railway and that you will appoint a state receiver instead of a federal receiver. I thank you for the step you have taken as I would rather trust it to your honor than any one else—they owe me \$1,650 for supplies furnished to section foremen and section hands, and I feel confident if your honor will take a hold of it that I as well as the rest whom they owe in the state of Oklahoma will be protected, and I thank you and approve of your action. Mr. Miles the local station agent of the Oklahoma Central was around gathering signatures from boarding houses as well as some employees, asking them to sign a paper in which they denounce the governor's action and asking them to sign to maintain a federal receiver. I refused to sign, I hope you will stand by your decision and take it in your hand and see that the employees, boarding house keepers, and merchants who furnished them merchandise, will get their money justly coming to them. Again thanking you for your action, I am,

Yours very respectfully,

BEN BYERS.

Mr. Ben Byers, Lehigh, Okla.
Dear Sir:—Yours of the sixth instant was a little late in reaching me, due no doubt to delayed train service.

I note that you say that the Oklahoma Central Railway owes you a total of sixteen hundred and fifty dollars for supplies furnished to sec-

tion foremen and section hands, and expressing the hope that I may be able to help you get your money. This I shall certainly keep trying to do until it is accomplished in some way. I have no interest in the matter beyond my official duty to the public that this company shall discharge its chartered duties of keeping its road in operation and that it shall pay all labor claims, boarding house bills, merchants like yourself for supplies, farmers and saw mill men who haul out ties and other timber, and all that class of local claims that have been incurred in construction, maintaining and operating the railroad in the discharge of its duties to the public.

Knowing that there are considerably over one hundred thousand dollars of this kind of claims, nearly eighty thousand of them due for labor and board bills to several hundred of our citizens, generally in small amounts, and that each one of these needy creditors alone is not able to enforce his own protection and collect his own claim, at least without great loss to himself, I have taken the position as governor of the state, we will not tolerate any such treatment of the public or of the men whose labor and material has gone to create or operate the property.

The newspapers in some instances have deliberately lied about the facts

In this case, either because they were paid for going, so or because they always criticize everything that is done for the public in general.

At the hearing a couple of weeks ago at Norman, where I had sent the assistant attorney general, Mr. Henshaw, to protect the interests of just such people as yourself, he took no decisive action because, as he reported to me, Mr. Carter assured him positively that he had arrangements made for money to pay all such bills and would be ready to pay them within twenty-four hours after he got home. Henshaw believed this story and did not take further procedure. The truth is as I am now led to believe, that Carter had no money in sight to pay the bills, but had, as I am informed, joined in an arrangement to have a receiver appointed by the United States court on the petition of some Chicago promoters and Trust Company men, in case he could get the State court to drop the case. The result seemed to justify this information as the Chicago people the very next day secured the appointment of a receiver in the United States court at McAlester, but from long years practice as a lawyer and having had claims and collections in several such cases, I know that the State court has invariably given more prompt and careful consideration to the small claimants in such cases.

I notice that one newspaper in particular has said that I had been an attorney in such a case at Lima, Ohio, a few years ago and that the small claimants did not get their pay in that case, the facts are that I did have a receiver appointed in May, eighteen hundred and ninety-five in the State court at Lima, Ohio, for a bankrupt railroad. The records

show that on the third day after the receiver was appointed, I, as attorney filed the receiver's preliminary report showing seventy odd thousand dollars due for labor, boarding house and grocery store claims and the same day obtained an order from the State court to issue and sell certificates and pay these claims. The order required two weeks notice to be given in a newspaper, but even with this two weeks delay the certificates were sold and every dollar of that kind of debts paid within a total of twenty-seven days from the day the receiver was appointed, although the bond holders and large creditors continued the case in court for forty-four months.

In my experience as a lawyer I had a number of just such cases under my charge and in only one case did the labor bills ever wait payment over sixty days.

The newspapers tell you that the governor is trying to impose on this poor, innocent railroad. We are informed by those who have examined the records that this company owes a total of about six hundred thousand dollars of open accounts including such as yourself and labor claims, material bills, etc. In addition to this it has outstanding about three million dollars face value of bonds issued through a Chicago Trust Company as trustee, that men connected with this Trust Company are interested in promoting the railroad, that they are the very men who are trying to get this road out of the hands of the state court, that for the three million dollars of bonds they have put only a little over two million dollars of money into the property, that they are trying in the United States court to make the bonds stick as first lien on the property ahead of other claims for the full amount of the face of the bonds and accrued interest. Do you believe that these Chicago speculators are trying to get your money if you and other local creditors like yourself, or trying to get the whole property for themselves? This question ought to be plain enough to your neighbors as it seems to be already to you, judging from your letter.

The plaintiff in the state court case only had a small claim, but the courts of Oklahoma give a small

creditor the right of protection just the same as a large creditor, otherwise what hope would there be for five or six hundred small creditors like yourself and the laboring men and boarding house keepers but the other cross petitioners who had large claims from twenty thousand dollars up, had agreed that they would consent that the labor and other small claims should be provided for at once and they would have been paid within two or three weeks at the latest and will be yet in case the State court retains the custody of the property, as I believe it will.

I am charged with imposing on the great railroad interests of the State, this is not true when they obey the law and do a straight business, but it is the duty of every

officer of this state, myself included, to protect the weak against the strong. The Oklahoma Central railroad property has been built and operated by our citizens furnishing material and labor, to the extent of thousands of dollars and I will not permit that property nor its Trust Company promoters to escape without paying its local creditors who desire protection, if it is possible to protect them, and I have no doubt that we will succeed. Promoters of the enterprise and foreign capital are welcome in Oklahoma, but they must deal honest and square with our people.

"Whoop-pee! that was a good game,

"Yep" was the reply, "the best I

sand," added the fan who had been
addressed by Bill.

Everybody was surprised, for the
band boys were out of town, and a
good many folk had gone to the pic-
nic at Francis and there was a sort
of unexpressed sentiment that Ada
would get licked for Sam LeFevre
is still sick, and everyone knew Ada
was shy a splendid pitcher. Not so,
though, Ada beat 'em out in as clean
a game as was ever performed. Both
teams played like clock work says
Mr. Torbett, the best judge of good
ball in Oklahoma, and who by the
way enjoys it better than he judges
it. The wonderful feature was that
in eight successive innings only one
measly error was made. At the
close of the eight inning the score
was 2 and 2. The next inning was
played in the Chicago professional
way. No score. The next, would
surely tell the story, so another
eastern professional air was put on
display again. No score, this could
not happen every time so another
performance was pulled off. No
score, and on and on until the six-
teenth, when Ada was at the bat
there were two out, two on bases
and Gorman at the plate. The end
is near. Something happened. A safe
clean hit, that made center field take
to his heels, brought an Ada man in
from second. Hats up. Frantic yells.
Ada had won the hardest fought con-
test ever waged on an Oklahoma dia-
mond. Ellis is to be congratulated
for holding the foe down to this many
hits (6) during the last eight innings.
This was the first of a series of three
games. Another is being played this
afternoon, and a third will be pulled
off tomorrow.

Oklahoma City, Okla., June 15, 1908
Messrs. Hardin and Jones,
Ada, Oklahoma,
Gentlemen:

On June 4th I called on the late Sheriff
Garrison of Oklahoma City to induce him to
continue the \$5,000 accident policy which he
had carried with this company for five
years.

He stated that he had given the matter
careful consideration and had decided to
discontinue this protection for the present.
On June 5th Mr. Garrison was shot and
killed by a negro whom he was attempting to
capture.

The sheriff of Kay Co. Oklahoma, was
killed this spring by being thrown from a
moving passenger train at Ponca City. He had
written this company for rates one day before.

If the sheriff and other officers in
your county do not carry this important
protection, why not?
Yours truly,
E. H. Laine

Company of New York.

Miss Grace Reed.
On Wednesday afternoon at 3:30
Miss Grace Reed, age 17 years died
at the home of her mother, Mrs. A.
D. Reed, on West 12th street. She
was stricken with typhoid fever
about two weeks ago, and from the
beginning her condition was consid-
ered serious. The fight against the
end was waged heroically, but He
who gave her life, willed that the
young spirit should no longer dwell
in the world of strife and affliction.
The deceased was a favorite
among her many girl associates and
friends. She was an earnest worker
in the city high school last term and

after the vacation begun she was a
conscientious employe in the office
of the Cement Co. near the city. Her
mind was brilliant, her life pure as
snow and like sunshine, her man-
ner and her countenance brightened
the home of her mother and the heart
of her companions. Those who knew
her mourn her soul's departure for
she was loved of them.
The remains were embalmed and
were taken to Coalgate this morning
for interment.

If you want your horse shod, bug-
gy repaired or lawn mower sharp-
ened, phone 369.

Revival Increases in Interest.
The revival at the Second Metho-
dist church in North Ada is con-
tinually increasing in interest. Last
night Bro. Jordan gave an entirely
new version of the "Ten Virgins" and
spoke the truth straight from the
shoulder. He had the undivided at-
tention of the congregation and at
the close of the service six came to
the altar and four were converted. It
was a very precious meeting and one

long to be remembered.
Tonight the evangelist will take for
his theme, "Who Is the Man in the
Crowd." Will not every young person
in the town come out tonight and
hear Brother Jordan? He is certain-
ly the young people's friend and
his preaching will be a blessing to
you. Let the southside people come
over and help us. It is a good long
walk but it will pay you.
Service begins promptly at 8:30
o'clock.

Everybody Coming.
From all accounts, everybody and
their dog will be in Ada on July
4th to celebrate the birthday of our
nation. We can learn of no other
celebration in a radius of many miles
of Ada, on that day and they are
coming. So the idea is to get ready
for them. Let's not do anything by
halves. Plenty to eat and abundance
of water is the main assurance of a
successful day.

The Great Physician and Surgeon Talks to County Teachers About the Eye.

Upon urgent request Dr. M. W. LeFevre of this city, who specializes in the eye, ear, nose and throat, and who delights in talking of these wonderfully created senses, appeared before the teachers of the county normal Wednesday and delivered a brief but masterful lecture on the eye.

It is good to see modern education familiarize themselves with this great factor in the science of knowledge getting. Among other things the Doctor said:

"It is peculiarly gratifying to me, a physician, to have been invited by your professors to speak to you, who are teachers, or about to become so, on a subject of so much vital interest for humanity. I think a situation most fortunate that your profession is joining that of medicine in this propaganda. It seems to me that nothing could be more natural than the union of these two forces.

At the present time the church recognizes the instructive union of human forces, and finds that it can best extend its beneficent influence by sending abroad in the form of medical missionaries. Therefore, ladies and gentlemen, when you as teachers, are taking a vital and achieving interest in this important matter you are doing something most fitting and natural the good which can thus be got from a union of the teacher and physician is incalculable. Indeed I believe this twain has always been in union. They are one because they exist for but one purpose, the good of human kind. Whatever differences there have been have had to my mind nothing to do with essentials but only with nomenclature, not concerning the heart of things, but only concerning words, and I have throughout conceived this paper not in the spirit of one profession addressing the members of another but as a man speaking to his fellow men, all of us having the inspiration of a single motive, the betterment of humanity."

Next came an anatomical description of the eye its muscles and movements and the Dioptric media. A crystalline lens taken from a pig's eye was passed among the students that they might better understand the important part the lens plays in the art of accommodation in errors of refraction.

Hypermetropic myopia and astigmatism were each described by colored charts. Eye strain in children was thoroughly described and methods by which teachers might detect it by test type and physical conditions anomalies of the eye were discussed at length. Also the use of the apththalmoscope and retinoscope in accurate measuring of refraction by these instruments especially in young children. Lastly the use of the Snellen test type and astigmatic chart.

Cross Not to Run.

Bili Cross, secretary of state, who it was reported, would make the race for the democratic nomination to congress, says he will not get in the race.

Ada Wins Second Game.

Just as we go to press we learn that the game between Madill and Ada today resulted in a victory for the local team. Score 4 to 2.

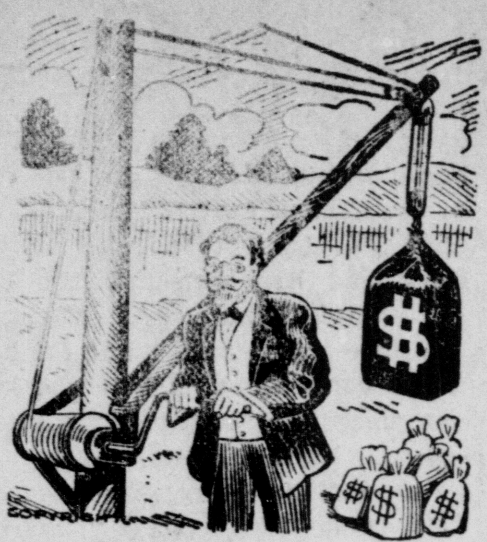

Patty Coffman was in the box for Ada and it was pitched ball as he did of old when Ada defeated the best teams in the Indian Territory.

THE SCHOOL LAND BILL.

The people of Oklahoma ought to wake up to the importance of the school land bill. Unless they do, after the election occurs this fall, they will be in the position of the imprudent individual who was keen to lock the stable door after the horse had been stolen.

Under the terms of the bill recently initiated by the committee of state officials and school land lessees at Guthrie the proposition to be voted upon this fall is the sale of ALL the school lands. No privilege is given to sell part of the lands and retain the balance or direct the holding of certain classes of the same for a given period. We must gulp it all at one time or leave it alone. So far as The Oklahoman is concerned, we propose, for this reason, to leave it alone. The Oklahoman said a few days ago, and it takes occasion to reiterate the statement here, that Governor Haskell, and the committee, did the right thing in submitting this question to the people for their approval or rejection after the failure of the legislature to take action thereon. All parties concerned have a right to see a definite policy in this connection adopted. But we doubt the wisdom of the adoption of the policy embodied in the initiated measure.

A very respectable element of our population hold to the view that it

when you need it when you own real estate. Real estate is always good security, and the best investment that you can make with your money. You can make an investment with future profits by buying some of the lots that we are offering at prices that will not stay at their present figures long.

Let Us Show You Hardin & Blanks

is the duty of the state to handle this question in such a manner as will best conserve the interests of the school fund. These lands were given us by congress in order to encourage us in the establishment of a common school system second to none. The fund, whether it be in lands or money, ought to be handled in the manner which is best designed to secure this end. The chief consideration, therefore, is whether we are able to do this by holding the lands or disposing of them. The Oklahoman is not one of those who believe that all of the lands ought to be held forever. On the contrary, it believes that certain classes of the same ought to be sold at once. In this list we would place all the indemnity or lieu lands, and the public building lands, for obvious reasons. The college lands ought to also be sold, or, at least, turned over to the various state institutions for the support of which they were granted, to be handled in such manner as the boards of control deem best.

But the common school lands—sections 16 and 36 in each congressional township—ought to be held, if not forever, then until their maximum value has been reached, which will be at least twenty-five years hence.

The sale of sections 16 and 36 at this time means that the state would have a common school fund of but approximately one-half the value that it would eventually have if these lands were retained until the state is fully developed and the maximum value of farm lands reached. The lessees know this, hence their keen interests in buying the lands at this time.

They want the lands, they say, for a home—a laudable ambition, we must confess—but we more than half suspect that this is not the sole reason. The lands are an excellent speculation at this time, as all of us know who have ever held Oklahoma farm lands.

The people of the state, who are the real owners of the lands, ought to also awaken to the crux of the question before it is too late. The form in which the school land sale bill is submitted at this time leaves no alternative to those who would retain the common school lands until they have, at least, attained their maximum value except to reject it, looking to a subsequent session of the legislature to authorize the sale of certain classes of the lands and adopting a policy for handling the balance. Hence we say, this is no time for the people to be lulled to sleep on this important question or permit the interested parties—the lessees—to walk off with the swag through default—Oklahoman.

MOB LYNCHES NINE TEXAS NEGROES FOR MURDER

Whites Take Prisoners From Sabine County Jail and Wreck Vengeance—More Trouble Feared.

Houston, Tex., June 22.—Last night nine negroes met death at the hands of a mob in the vicinity of Hemphill in Sabine county. Today both races secured arms and a clash appears imminent.

The dead are: Jerry Evans, 22; Will Johnson, 24; Mose Spellman, 24; Cleveland Williams, 27; William Manuel, 25; Frank Williams, 22; two Unknown Men; William McCoy.

The lynchings followed the killing of two white men by negroes. Two weeks ago Hugh Dean and several other white men visited a negro church and school house where a dance was in progress, presumably in quest of liquor, it being the custom of some of the negroes to sell whiskey during the progress of such affairs.

During the evening Dean was killed

and six negroes were held for the killing. At the preliminary examination the evidence tended to show that the plot was formed at the dance to kill Dean.

Saturday last a man named Johnson, a prominent farmer, was assassinated while seated at the dining table with his wife and child, the bullet being fired through the window. For this crime, Perry Price, a negro, was arrested and, it is stated, confessed immediately, implicating one Robert Wright, a relative of one of the negroes held for the Dean murder. Price declared he was offered \$5 to kill Johnson.

Then followed the forming of the mob last night, the overpowering of the jailer at Hemphill and the lynching of the six negroes held for the murder of Dean.

Five were hanged to the same tree while another attempted to escape and was shot to death.

Later in the night William McCoy, another negro, was shot and killed while standing at the gate of the Johnson home and this morning the bodies of two more negroes were found in the creek bottom.

Wright, the negro, confessed to the killing of Johnson and the man he implicated were taken to Beaumont for safe keeping under guard of the military company of Sam Augustin.

Sabine county is situated in the most remote of the eastern section of the state with sparse railroad and telegraph facilities.

Impressive Statistics.

That wireless telegraphy is becoming a powerful factor in overseas communications is shown by statistics recently collected which give the number of stations at 1,550, classified approximately as follows:

Commercial land stations, 195; merchant vessels, 170; lighthouses, etc. (government stations), 159; naval installations, 670; military portable installations, 55; experimental stations, 310. These 1,550 stations had been erected by the various companies in approximately the following proportions: Telefunken, 41 per cent.; Marconi, 20 per cent.; De Forest, 6 per cent.; Lodge-Muirhead, 3 per cent.; Fessenden, 3 per cent.; other systems, 27 per cent. As regarded commercial land stations the proportions were: Marconi, 32 per cent.; other systems, 68 per cent. On merchant vessels: Marconi, 56 per cent.; other systems, 44 per cent.

The Vanishing Fleets

By ROY NORTON

farewell and carrying his fleets for the last time. No more would its wastes echo to his passing salute or witness his trivial strainings for a flag. Only the song of the fisherman might henceforth echo along the shores whereon it beat. It had outlasted those sturdy hulls of oak and steel that once had dared its force.

High above swept the invaders of that new territory to which man had at last laid claim and was to hold in domination for his use. Blue as the skies above them, the radioplanes hovered over and bade farewell to the vanishing fleets. In the vanguard flew the Norma, her colors fluttering in the breeze of flight as they had done on that day when she swooped down through screaming shells to wrest power from the enemy. Floating after her moved the huge Roberts, its metal sides throwing back the rays of the western sun. Close behind in stately pursuit was Seventeen, whose plates had felt the biting force of the dead Yakumo's guns. And so they came, bidding farewell to the ships of an abandoned sea. Small wonder that the soul of the girl who watched felt one instant's regret that she was never again to know the exhilaration of the fray! A half smile of tenderness parted her lips as she thought that there in the air above her were her friends and companions in arms—grim old fighting Bevins with his prayerful oaths, good-natured Brockton whose kindness she knew, and studious little Jenkins whose imperturbability equaled his steadfast bravery.

Guy, understanding and respecting the storm of feeling which must be hers at sight of this pageantry of which she had been such a vital part,

watched her in silence. Almost at their feet squatted Fort Hancock, whose guns were to be blown for the last time. It too, like its fellow forts, was of the dying. Like them its bastions would be abandoned and the men within driven to ways of peace. Fortress and ship, garrison and crew, would be no more. Crumbling, untenanted walls left as records of a nation's defense, and rotting uniforms relegated to garrets, would be all that were left—armies reorganized and reduced for police force only, and sailors become fishermen or passing their lives in other occupations and reminiscing of the sea; swords rusting in scabbards and guns corroding in embrasures, nothing more!

The last salute had boomed out. Lower and lower flew the radioplanes, till they were close above the outgoing ships. The ports of the peacemakers opened, and from them fell garlands of flowers, which fluttered down through the air indiscriminately upon the doomed craft and the waves themselves—a tribute of peace from the living and wreaths for the dying gladiators of war.

Hand in hand Norma and Guy stood upon the headland beneath the gray beacon lights that would welcome strange travelers from foreign ports no more. Into the darkening skies of the east the fleets of the nations were speeding to dissolution and death. The long, steady swell of the free and unburdened sea came monotonously hammering at their feet. In silence they watched the relics of cruel war sail out, saw their hulls disappear, saw the trails of smoke diverge as each squadron sought its own course, and then looked into each other's eyes, reading therein nothing but a promise of love and serenity. Their troubles had vanished as had those fleets of the sea, and life with all its possibilities of accomplishment and contentment was before them. They turned from the great silent ocean and walked into the golden radiance of the sunset toward their home.

THE END.

POINTERS FOR YOUNG MEN.

Little Things to Remember for Those Seeking Positions.

The young man accepting the first position finds that results are what count the most in the world of wage-earners, and that the young man who makes ready promises and does not keep them will not be apt to be favored with an increase of salary when the personnel of the working force is gone over to see which of the men in the employ of the firm are giving efficient service and deserving of recognition.

The young man must make up his mind to accept his first position with one point in view—that he will work all the time he is on duty during business hours, and that he will not allow any portion of the work to be neglected. The small tasks, he will find, accumulate rapidly, which will make work outside of his regular hours a necessity.

A bad habit to fall into is to grumble all of the time that you are doing too much work for the salary paid. When a young man is hired by a business house it is a plain business proposition—the duties of the position are fully explained, and the employee agrees to do so much work each day for so much pay. If the young man agrees to accept the situation, he also agrees to do the amount of work that belongs to the position, and if he finds there is too much work for the pay, he has the privilege of seeking another situation, the same as the employer has to get another man to do the work if he learns that the young man cannot fill the position.—Spare Moments.

To stop any pain, anywhere in 20 minutes, simply take just one of Dr. Shoop's Pink Pain Tablets. Pain means congestion—blood pressure—that is all. Dr. Shoop's Headache—or Pink Pain Tablets—will quickly coax blood pressure away from pain centers. After that, pain is gone. Headache, Neuralgia, painful periods with women etc., get instant help. 20 Tablets 25c. Sold by Ramsey's Drug Store.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves leave us languid, lifeless and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a falling appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure it with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. EX-PRES. CLEVELAND DEAD

**Sudden Death of Former President
Occurs at Princeton, N. J.—Na-
tion in Mourning.**

Princeton, N. J., June 24.—Grover Cleveland, former President of the United States, died at 8:40 this morning at his home in Princeton, N. J.

He had been ill for some time, and his death was not unexpected.

When the news of his death came, which was confirmed by the death chamber at the Princeton hospital, Mrs. Cleveland, Dr. Joseph D. Bryant of New York, Dr. Cleveland's family physician, and Dr. George R. Lockwood, also of New York, and Dr. John A. Cannon of Princeton.

The official statement given out and signed by the three physicians gave the cause of death as "heart failure, the result of long standing high blood pressure."

And Unexpected.

While Mr. Cleveland had been in poor health for the two last years, and had lost a hundred pounds in weight, his death came unexpected. Some three weeks ago he was brought home from Lakewood, where his condition for a time was such that the hotel at which he was staying was closed upon after its regular season because he was too ill to move. But when Mr. Cleveland was brought back to Princeton he showed a marked improvement and actually gained five pounds in weight.

Although confined to his room, conversation with him was not infrequently held. It was not until yesterday that Mr. Cleveland's condition showed a marked improvement on the part of Mrs. Cleveland.

Unaffected by Heat.

Undoubtedly affected by the heat, Mr. Cleveland showed signs of failure and Mrs. Cleveland telephoned to Dr. Bryant who came over from New York on the train arriving 18:55. It was reported by Benjamin Bryant, a physician from New York and when he reached here Dr. Carnegie had been Mr. Cleveland's physician. He had been the former president of the Princeton University and was also a member of the Princeton University. He was a member of the Princeton University and was also a member of the Princeton University.

NEWS ENDORSED.

Wednesday's News contained an article of news in part explanatory of the law lately passed by the legislature creating an under officer of the county court, the duties of which involved probate jurisdiction and in fact the duties of the fact that Mr. Tom Holt, present city attorney of Ada, having accepted such office and having entered on the duties thereof. There was included in this general news article some editorial afterthought which was regarded highly pertinent as referred to the interest and welfare of the city and county, especially of the city. The timeliness of the remarks of the News about the dual office holding capacity of Mr. Holt has been emphasized through voluntary expressions of members of the citizens in approval of the News' view. It is not too much to assert that conscientious public opinion is shocked in its consideration of him whose regards for the proper performance of public duty appears to be measured rather by the number of offices he can dignify by their occupancy and the emoluments attached thereto rather than by an appreciation of confidence of the public bestowed and the conscientiousness of duty well performed. I note that you say that the Oklahoma Central Railway owes you a total of sixteen hundred and fifty dollars for supplies furnished to see-

offensive to Messrs. Carter and Sharp.

The News believes that the governor, when he engaged his attention to the matter of the application of the bondsmen for a receivership, was actuated only by honorable motives when he caused the state to offer interference. On account of the distortions of a republican press in their dissemination of the alleged facts connected with this receivership, the News hereunder publishes two letters, one from Ben Byers of Lehigh, directed to Governor Haskell and one from the return answer of the governor to Mr. Byers.

Honorable Governor, Guthrie, Okla.
Your Honor—I have read an article in the Daily Oklahoman of June 2nd that you are taking a hold on the receivership of the Oklahoma Central railway and that you will appoint a state receiver instead of a federal receiver. I thank you for the step you have taken as I would rather trust it to your honor than any one else—they owe me \$1,650 for supplies furnished to section foremen and section hands and I feel confident if your honor will take a hold of it that I as well as the rest whom they owe in the state of Oklahoma will be protected, and I thank you and approve of your action. Mr. Miles the local station agent of the Oklahoma Central was around gathering signatures from boarding houses as well as some employees, asking them to sign a paper in which they denounce the governor's action and asking them to sign to maintain a federal receiver. I refused to sign, I hope you will stand by your decision and take it in your hand and see that the employees, boarding house keepers, and merchants who furnished them merchandise, will get their money justly coming to them. Again thanking you for your action, I am,

Yours very respectfully,

BEN BYERS.

Mr. Ben Byers, Lehigh, Okla.
Dear Sir—Yours of the sixth instant was a little late in reaching me, due no doubt to delayed train service.

I note that you say that the Oklahoma Central Railway owes you a total of sixteen hundred and fifty dollars for supplies furnished to see-

tion foremen and section hands, and expressing the hope that I may be able to help you get your money. This I shall certainly keep trying to do until it is accomplished in some way. I have no interest in the matter beyond my official duty to the public that this company shall discharge its chartered duties of keeping its road in operation and that it shall pay all labor claims, boarding house bills, merchants like yourself for supplies, farmers and saw mill men who haul out ties and other timber, and all that class of local claims that have been incurred in construction, maintaining and operating the railroad in the discharge of its duties to the public.

Knowing that there are considerably over one hundred thousand dollars of this kind of claims, nearly eighty thousand of them due for labor and board bills to several hundred of our citizens, generally in small amounts, and that each one of these needy creditors alone is not able to enforce his own protection and collect his own claim, at least without great loss to himself, I have taken the position as governor of the state, we will not tolerate any such treatment of the public or of the men whose labor and material has gone to create or operate the property.

The newspapers in some instances have deliberately lied about the facts

In this case, too, because they were paid for some so or because they always criticize everything that is done for the public in general.

At the hearing a couple of weeks ago at Norman, where I had sent the assistant attorney general, Mr. Henshaw, to protect the interests of just such people as yourself, he took no decisive action because, as he reported to me, Mr. Carter assured him positively that he had arrangements made for money to pay all such bills and would be ready to pay them within twenty-four hours after he got home. Henshaw believed this story and did not take further procedure. The truth is as I am now led to believe, that Carter had no money in sight to pay the bills, but had, as I am informed, joined in an arrangement to have a receiver appointed by the United States court on the petition of some Chicago promoters and Trust Company men, in case he could get the State court to drop the case. The result seemed to justify this information as the Chicago people the very next day secured the appointment of a receiver in the United States court at McAlester, but from long years practice as a lawyer and having had claims and collections in several such cases, I know that the State court has invariably given more prompt and careful consideration to the small claimants in such cases.

I notice that one newspaper in particular has said that I had been an attorney in such a case at Lima, Ohio, a few years ago and that the small claimants did not get their pay in that case, the facts are that I did have a receiver appointed in May, eighteen hundred and ninety-five in the State court at Lima, Ohio, for a bankrupt railroad. The records

show that on the third day after the receiver was appointed, I, as attorney for the receiver, procured a report showing seventy odd thousand dollars due for labor, boarding house and grocery store claims and the same day obtained an order from the State court to issue and sell certificates and pay these claims. The order required two weeks' notice to be given in a newspaper, but even with this two weeks delay the certificates were sold and every dollar of that kind of debts paid within a total of twenty-seven days from the day the receiver was appointed, although the bond holders and large creditors continued the case in court for forty-four months.

In my experience as a lawyer I had a number of just such cases under my charge and in only one case did the labor bills ever wait payment over sixty days.

The newspapers tell you that the governor is trying to impose on this poor, innocent railroad. We are informed by those who have examined the records that this company owes a total of about six hundred thousand dollars of open accounts including such as yourself and labor claims, material bills, etc. In addition to this it has outstanding about three million dollars face value of bonds issued through a Chicago Trust Company as trustee, that men connected with this Trust Company are interested in promoting the railroad, that they are the very men who are trying to get this road out of the hands of the state court, that for the three million dollars of bonds, they have put only a little over two million dollars of money into the property, that they are trying in the United States court to make the bonds stick as first lien on the property ahead of other claims for the full amount of the face of the bonds and accrued interest. Do you believe that these Chicago speculators are trying to get your money if you and other local creditors like yourself, or trying to get the whole property for themselves? This question ought to be plain enough to your neighbors as it seems to be already to you, judging from your letter.

The plaintiff in the state court case only had a small claim, but the courts of Oklahoma give a small

creditor the right of protection just the same as a large creditor, otherwise what hope would there be for five or six hundred small creditors like yourself and the laboring men and boarding house keepers but the other cross petitioners, who had large claims from twenty thousand dollars up, had agreed that they would consent that the labor and other small claims should be provided for at once and they would have been paid within two or three weeks at the latest and will be yet in case the State court retains the custody of the property, as I believe it will.

I am charged with imposing on the great railroad interests of the State, this is not true when they obey the law and do a straight business, but it is the duty of every

officer of this state, myself included, to protect the weak against the strong. The Oklahoma Central railroad property has been built and operated by our citizens furnishing material and labor, to the extent of thousands of dollars and I will not permit that property nor its Trust Company promoters to escape without paying its local creditors who desire protection, if it is possible to protect them, and I have no doubt that we will succeed. Promoters of the enterprise and foreign capital are welcome in Oklahoma, but they must deal honest and square with our people.

"Whoop-pee! that was a good game,
wasn't Bill?"

"Yep" was the reply, "the best I
ever saw, and I have seen a thou-
sand," added the fan who had been
addressed by Bill.

Everybody was surprised, for the
band boys were out of town, and a
good many folk had gone to the pic-
nic at Francis and there was a sort
of unexpressed sentiment that Ada
would get licked for Sam LeFevre
is still sick, and everyone knew Ada
was -by a splendid pitcher. Not so,
though, Ada beat 'em out in as clean
a game as was ever performed. Both
teams played like clock work save
Mr. Torbett, the best judge of good
ball in Oklahoma and who by the
way enjoys it better than he judges
it. The wonderful feature was that
in both of the game innings only one
month's error was made. At the
close of the night inning the score
was 2 and 2. The next morning was
played in the Chicago professional
way. The next, work's
surrely tell the story, so another
professional air was put on
display again. No score this could
not happen every time so another
performance was pulled off. No
score and on and on until the six-
teenth, when Ada was at the bat
there were two out, two on bases
and Gorman at the plate. The end
is near. Something happened. A safe
clear hit, that made center field take
to his heels, brought an Ada man in
from second. Hats up, Francis yells.
Ada had won the hardest fought con-
test ever waged on an Oklahoma dia-
mond. Ellis is to be congratulated
for holding the foe down to this many
hits (6) during the last eight innings.
This was the first of a series of three
games. Another is being played this
afternoon, and a third will be pulled
off tomorrow.

Oklahoma City, Okla., June 15, 1908
Messrs. Hardin and Jones.
Ada, Oklahoma,
Gentlemen:
On June 4th I called on the late Sheriff
Garrison of Oklahoma City to induce him to
continue the \$1,000 accident policy which he
had carried with this company for five
years.
He stated that he had given the matter
careful consideration and had decided to
discontinue this protection for the present.
On June 5th Mr. Garrison was shot and
killed by a negro whom he was attempting to
capture.
The sheriff of Kay Co. Oklahoma, was
killed this spring by being thrown from a
moving passenger train at Ponca City. He had
written this company for rates one day before.
If the sheriff and other officers in
your county do not carry this important
protection, why not?
Yours truly,

Miss Grace Reed.
On Wednesday afternoon at 3:30
Miss Grace Reed, age 17 years died
at the home of her mother, Mrs. A.
D. Reed, on West 13th street. She
was stricken with typhoid fever
about two weeks ago, and from the
beginning her condition was consid-
ered serious. The fight against the
end was waged heroically, but He
who gave her life, willed that the
young spirit should no longer dwell
in the world of strife and affliction.
The deceased was a favorite
among her many girl associates and
friends. She was an earnest worker
in the city high school last term and

after the vacation begun she was a
conscientious employe in the office
of the Cement Co. near the city. Her
mind was brilliant, her life pure as
snow and like sunshine, her man-
ner and her countenance brightened
the home of her mother and the heart
of her companions. Those who knew
her mourn her soul's departure for
she was loved of them.
The remains were embalmed and
were taken to Coalgate this morning
for interment.

gy repaired or lawn mower sharp-

Revival Increases in Interest.
The revival at the Second Metho-
dist church in North Ada is con-
tinually increasing in interest. Last
night Bro. Jordan gave an entirely
new version of the "Ten Virgins" and
spoke the truth straight from the
shoulder. He had the undivided at-
tention of the congregation and at
the close of the service six came to
the altar and four were converted. It
was a very precious meeting and one
long to be remembered.
Tonight the evangelist will take for
his theme, "Who is the Man in the
Crowd." Will not every young person
in the town come out tonight and
hear Brother Jordan? He is certain-
ly the young people's friend and
his preaching will be a blessing to
you. Let the southside people come
over and help us. It is a good long
walk but it will pay you.
Service begins promptly at 8:30
o'clock.
Everybody Coming.
From all accounts, everybody and
their dog will be in Ada on July
4th to celebrate the birthday of our
nation. We can learn of no other
celebration in a radius of many miles
of Ada, on that day and they are
coming. So the idea is to get ready
for them. Let's not do anything by
halves. Plenty to eat and abundance
of water is the main assurance of a
successful day.

The Great Physician and Surgeon
Talks to County Teachers About
The Eye

Upon an evening of the 14th of
Febr. Dr. Dean, of the University
of Oklahoma, who delights in talking of the
wonderfully created senses, appeared before
the teachers of the county normal
Wednesday and delivered a brief
but masterful lecture on the eye.

It is good to see modern education
familiarize themselves with this
great factor in the science of knowl-
edge getting. Among other things the
Doctor said:

"It is peculiarly gratifying to me, a
physician, to have been invited by
your professors to speak to you, who
are teachers, or about to become so,
on a subject of so much vital interest
for humanity. I think a situation
most fortunate that your profession
is joining that of medicine in this
propaganda. It seems to me that nothing
could be more natural than the union
of these two forces.

At the present time the church
recognizes the instructive union of
human forces, and finds that it can
best extend its beneficent influence
by sending abroad in the form of
medical missionaries. Therefore, la-
dies and gentlemen, who you as
teachers, are taking a vital and
achieving interest in this important
matter you are doing something most
fitting and natural the good which
can thus be got from a union of the
teacher and physician is incalculable.
Indeed I believe this union has al-
ways been in union. They are one
because they exist for but one pur-
pose, the good of human kind. What-
ever differences there have been have
had to my mind nothing to do with
essentials but only with nomenclature,
not concerning the heart of
things, but only concerning words,
and I have throughout conceived this
paper not in the spirit of one pro-
fession addressing the members of
another but as a man speaking to
his fellow men, all of us having the
inspiration of a single motive, the
betterment of humanity."

Next came an anatomical descrip-
tion of the eye its muscles and move-
ments and the dioptric media. A
crystalline lens taken from a pig's
eye was passed among the students
that they might better understand its
important part the lens plays in the
art of accommodation in error of re-
fraction.

Hypermetropic myopia and astigmat-
ism were each described by colored
charts. Eye strain in children was
thoroughly described and methods by
which teachers might detect it by
test type and physical conditions
anomalies of the eye were discussed
at length. Also the use of the
ophthalmoscope and retinoscope in
accurate measuring of refraction by
these instruments especially in young
children. Lastly the use of the Shellen
test type and astigmatic chart.

Cross Not to Run.
Bill Cross, secretary of state, who
it was reported, would make the race
for the democratic nomination to
congress, says he will not get in
the race.

Ada Wins Second Game.
Just as we go to press we learn
that the game between Madill and
Ada today resulted in a victory for
the local team. Score 4 to 2.

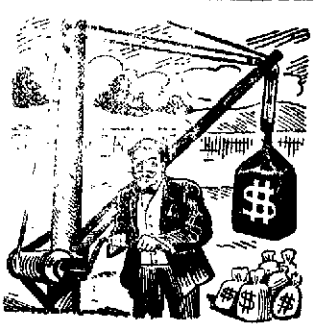

Fatty Coffman was in the box for
Ada and it is said pitched ball as he
did of old when Ada defeated the best
team in the Indian Territory.

THE SCHOOL LAND BILL.

The people of Oklahoma ought to
wake up to the importance of the
school land bill. Unless they do, after
the election occurs this fall, they will
be in the position of the imprudent
individual who was keen to lock the
stable door after the horse had
been stolen.

Under the terms of the bill recently
introduced by the committee of
state officials and school land lessees
at Guthrie the proposition to be
voted upon this fall is the sale of
ALL the school lands. No privilege
is given to sell part of the lands
and retain the balance or direct the
holding of certain classes of the
same for a given period. We must
gulp it all at one time or leave it
alone. So far as The Oklahoman is
concerned, we propose, for this reason,
to leave it alone. The Okla-
homan said a few days ago, and it
takes occasion to reiterate the state-
ment here, that Governor Haskell,
and the committee, did the right thing
in submitting this question to the
people for their approval or rejection
after the failure of the legislature
to take action thereon. All parties
concerned have a right to see a definite
policy in this connection adopted.
But we doubt the wisdom of the
adoption of the policy embodied in
the inflated measure.

A very respectable element of our
population hold to the view that it

IT'S EASY TO RAISE MONEY.

When you need it when you own
real estate. Real estate is always
good security, and the best invest-
ment that you can make with your
money. You can make an investment
with future profits by buying some
of the lots that we are offering at
prices that will not stay at their
present figures long.

Let Us Show You Hardin & Blanks

Office: -Ada Nat'l Bank Bldg

It is the duty of the state to handle this
question in such a manner as will
best conserve the interests of the
school fund. These lands were given
us by congress in order to encourage
us in the establishment of a common
school system second to none. The
fund, whether it be in lands or money,
ought to be handled in the manner
which is best designed to secure
this end. The chief consideration,
therefore, is whether we are able to
do this by holding the lands or dis-
posing of them. The Oklahoman is
not one of those who believe that all
of the lands ought to be held forever.
On the contrary, it believes that
certain classes of the same
ought to be sold at once. In this
list we would place all the indemnity
or lieu lands, and the public build-
ing lands, for obvious reasons. The
college lands ought to also be sold,
or, at least, turned over to the vari-
ous state institutions for the sup-
port of which they were granted, to
be handled in such manner as the
boards of control deem best.

But the common school lands—sec-
tions 16 and 36 in each congressional
township—ought to be held, if not
over, then until their maximum
value has been reached, which will
be at least twenty-five years hence.
The sale of sections 16 and 36 at
this time means that the state would
have a common school fund of but
approximately one-half the value that
it would eventually have if these
lands were retained until the state
is fully developed and the maximum
value of farm lands reached. The
lessees know this, hence their keen
interests in buying the lands at this
time.

They want the lands, they say,
for a home—a laudable ambition,
we must confess—but we more than half
suspect that this is not the sole reason.
The lands are an excellent specu-
lation at this time, as all of us know
who have ever held Oklahoma farm
lands.

The people of the state, who are
the real owners of the lands, ought
to also awaken to the crux of the
question before it is too late. The
form in which the school land sale
bill is submitted at this time leaves
no alternative to those who would re-
tain the common school lands until
they have, at least, attained their
maximum value except to reject to
it, looking to a subsequent session of
the legislature to authorize the sale
of certain classes of the lands and
adopting a policy for handling the
balance. Hence, we say, this is no
time for the people to be lulled to
sleep on this important question or
permit the interested parties—the
lessees—to walk off with the swag
through default.—Oklahoman

MOB LYNCHES NINE TEXAS NEGROES FOR MURDER

Whites Take Prisoners From Sabine
County Jail and Wreck Veng-
eance—More Trouble Feared.

Houston, Tex., June 22.—Last night
nine negroes met death at the hands
of a mob in the vicinity of Hemp-
hill in Sabine county. Today both
sides secured arms and a clash ap-
pears imminent.
The dead are: Jerry Evans, 22; Will
Johnson, 24; Mose Spellman, 24;
Cleveland Williams, 27; William Man-
uel, 25; Frank Williams, 22; two Un-
known Men; William McCoy.
The lynchings followed the killing
of two white men by negroes.
Two weeks ago Hugh Dean and
several other white men visited a ne-
gro church and school house where
a dance was in progress, presumably
in quest of liquor, it being the cus-
tom of some of the negroes to sell
whiskey during the progress of such
affairs.
During the evening Dean was killed

and six negroes were held for the
killing. At the preliminary examina-
tion the evidence tended to show that
the plot was formed at the dance to
kill Dean.

Saturday last a man named John-
son, a prominent farmer, was assassi-
nated while seated at the dining table
with his wife and child, the bullet be-
ing fired through the window. For
this crime, Perry Price, a negro, was
arrested and, it is stated, confessed
immediately, implicating one Robert
Wright, a relative of one of the ne-
groes held for the Dean murder. Price
declared he was offered \$5 to kill
Johnson.

Then followed the forming of the
mob last night, the overpowering of
the jailer at Hemphill and the lynching
of the six negroes held for the
murder of Dean.

Five were hanged to the same tree
while another attempted to escape and
was shot to death.
Later in the night William McCoy,
another negro, was shot and killed
while standing at the gate of the
Johnson home and this morning the
bodies of two more negroes were
found in the creek bottom.

Wright, the negro, confessed to
the aiding of Johnson and the man
he implicated were taken to Beaufort
for safe keeping under guard
of the military company of Sam Austin.

Sabine county is situated in the
most remote of the eastern section
of the state with sparse railroad
and telegraph facilities.

Impressive Statistics.

That wireless telegraphy is becom-
ing a powerful factor in overseas
communications is shown by statis-
tics recently collected which give the
number of stations at 1,550, classified
approximately as follows:
Commercial land stations, 195; mer-
chant vessels, 170; lighthouses, etc.
(government stations), 150; naval in-
stallations, 670; military portable in-
stallations, 55; experimental stations,
310. These 1,550 stations had been
erected by the various companies in
approximately the following propor-
tions: Telefunken, 41 per cent.;
Marconi, 20 per cent.; De Forest, 6
per cent.; Lodge-Mulholland, 3 per cent.;
Resendin, 3 per cent.; other systems,
27 per cent. As regarded commercial
land stations the proportions were:
Marconi, 32 per cent.; other systems,
68 per cent. On merchant vessels
Marconi, 56 per cent.; other systems,
44 per cent.

The Vanishing Fleets

By ROY NORTON

farewell and carrying his fleets for
the last time. No more would its
wastes echo to his passing salute or
witness his trivial strappings for a
flag. Only the song of the fisherman
might henceforth echo along the
shores whereon it beat. It had out-
lasted those sturdy hulls of oak and
steel that once had dared its force.

High above swept the invaders of
that new territory to which man had
at last laid claim and was to hold in
domination for his use. Blue as the
skies above them, the radioplanes
flashed over and bade farewell to the
vanishing fleets. In the vanguard
flew the Norma, her colors fluttering
in the breeze of flight as they had
done on that day when she swooped
down through screaming shells to
wrest power from the enemy. Float-
ing after her moved the huge Roberts,
its metal sides throwing back the
rays of the western sun. Close be-
hind in stately pursuit was Seven-
teen whose plates had felt the biting
force of the dead Yakuza's guns.
And so they came, bidding farewell
to the ships of an abandoned sea.
Small wonder that the soul of the girl
who watched felt one instant's regret
that she was never again to know the
exaltation of the fray. A half smile
of tenderness parted her lips as she
thought that there in the air above
her were her friends and companions
in arms—grim old fighting Bevis
with his prayerful oaths, good-natured
Brookton whose kindness she knew,
and audacious little Jenkins whose im-
pertinability equaled his steadfast
bravery.

Guy, understanding and respecting
the spirit of feeling which must be
hers at the sight of this pageantry of
which she had seen such a vital part,
watched her in silence. Almost at
their feet squatted Fort Hancock,
whose guns were to be blown for the
last time. It too, like its fellow forts,
was of the dying. Like them its bat-
tions would be abandoned and the
men within driven to ways of peace.
Fortress and ship, garrison and crew,
would be no more. Crumbling, un-
tenanted walls left as records of a
nation's defense, and rotting uniforms
relegated to garrets, would be all that
were left—armies reorganized and re-
duced for police force only, and sail-
ors become fishermen or passing their
lives in other occupations and remi-
niscing of the sea; swords rusting in
scabbards and guns corroding in
embrasures, nothing more.

The last salute had boomed out.
Lower and lower flew the radioplanes,
till they were close above the outgoing
ships. The ports of the peacemakers
opened, and from them fell garlands
of flowers, which fluttered down
through the air indiscriminately upon
the doomed craft and the waves them-
selves—a tribute of peace from the
living and wreaths for the dying
gladiators of war.

Hand in hand Norma and Guy stood
upon the headland beneath the gray
beacon lights that would welcome
strange travelers from foreign ports
no more. Into the darkening skies of
the east the fleets of the nations were
speeding to dissolution and death.
The long, steady swell of the free and
unburdened sea came monotonously
hammering at their feet. In silence
they watched the relics of cruel war
sail out, saw their hulls disappear,
saw the trails of smoke diverge as
each squadron sought its own course,
and then looked into each other's
eyes, reading therein nothing but a
promise of love and serenity. Their
troubles had vanished as had those
fleets of the sea, and life with all its
possibilities of accomplishment and
contentment was before them. They
turned from the great silent ocean
and walked into the golden radiance of
the sunset toward their home.

"THE END."

POINTERS FOR YOUNG MEN.

Little Things to Remember for Those
Seeking Positions.

The young man accepting the first
position finds that results are what
count the most in the world of wage-
earners, and that the young man who
makes ready promises and does not
keep them will not be apt to be fa-
vored with an increase of salary when
the personnel of the working force is
gone over to see which of the men in
the employ of the firm are giving
efficient service and deserving of recognition.

The young man must make up his
mind to accept his first position with
one point in view—that he will work
all the time he is on duty during
business hours, and that he will not
allow any portion of the work to be
neglected. The small tasks, he will
find, accumulate rapidly, which will
make work outside of his regular
hours a necessity.

A bad habit to fall into is to grum-
ble all of the time that you are doing
too much work for the salary paid.
When a young man is hired by a busi-
ness house it is a plain business propo-
sition—the duties of the position are
fully explained, and the employee
agrees to do so much work each day
for so much pay. If the young man
agrees to accept the situation, he also
agrees to do the amount of work that
belongs to the position, and if he finds
there is too much work for the pay,
he has the privilege of seeking another
situation, the same as the employer
has to get another man to do the
work if he learns that the young man
cannot do the position.

To stop any pain, anywhere in 20
minutes, simply take just one of Dr.
Shoop's Pink Pain Tablets. Pain
means congestion—blood pressure—
that is all Dr. Shoop's Headache—or
Pink Pain Tablets—will quickly coax
blood pressure away from pain cen-
ters. After that, pain is gone. Head-
ache, Neuralgia, painful periods with
women etc., get instant help. 20 Tab-
lets 25c. Sold by Ramsey's Drug

If one feels dull and spiritless, in
the spring or early summer, they call
it "Spring Fever." But there is no
fever—usually. It is the after effect
of our winter habits. The nerves are
mostly at fault. Tired, worn-out
nerves leave us languid, lifeless and
without spirit or ambition. A few
doses of Dr. Shoop's Restorative will
absolutely and quickly change all of
these depressing symptoms. The Resto-
rative of course won't bring you
back to full health in a day or two,
but it will do enough in 48 hours to
satisfy you that the remedy is reach-
ing that "tired spot." Druggists ev-
erywhere are advising its use as, a
splendid and prompt general tonic.
It gives more vim and more spirit to
the spoonful than any other known
nerve or constitutional tonic. It
sharpens a fading appetite, aids di-
gestion, frees sluggish livers and kid-
neys, and brings new life, strength
and ambition. Test it a few days and
be convinced.

G. M. RAMSEY.

There is more comfort in this ver-
sion of the human body than other
diseases put together, and until the
last few years was supposed to be in-
curable. For a great many years
doctors pronounced it a local disease
and prescribed local remedies, and
by constantly failing to cure it with
local treatment, pronounced it incur-
able. Science has proven enough to
be a constitutional disease, and
therefore requires constitutional treat-
ment. Hall's Catarrh Cure, manufac-
tured by F. J. Cheney & Co., Toledo,

EX-PRES. CLEVELAND DEAD

Sudden Death of Former President
Occurs at Princeton, N. J.—Na-
tion in Mourning.

Princeton, N. J., June 24.—Grover Cleveland, ex-president of the United States, died at 8:40 this morning at his home in Princeton, N. J. He was 71 years old. He had been ill for some time, but his condition was not serious.

When he came which was said to be the death of him. He was found in the death chamber of the hotel. He was found by the hotel manager. He was found by the hotel manager. He was found by the hotel manager.

The official statement given out and signed by the three physicians gave the cause of death as a heart attack.

And Unexpected.

While Mr. Cleveland had been in poor health for the two last years and had lost a hundred pounds in weight, his death came unexpected. Some three weeks ago he was brought home from a hospital where his condition for a time was such that the hotel at which he was staying was closed. He was in a regular season and he was too ill to move. When Mr. Cleveland was brought back to Princeton he showed a marked improvement and actually gained five pounds in weight.

Although confined to his room, he continued to read and write.

He was not until yesterday that Mr. Cleveland's condition aroused uneasiness on the part of Mrs. Cleveland.

All those who are familiar with the early days of the Oklahoma Territory will remember the story of the two men who were the first to enter the territory. One was a man of means and the other was a man of poverty. The man of means was a man of means and the other was a man of poverty.

NEWS ENDORSED.

Wednesday's News contained an article of news in part explanatory of the law lately passed by the legislature creating an under officer of the county court, the duties of which involved probate jurisdiction and information of the fact that Mr. Tom Holt, present city attorney of Ada having accepted such office and having entered on the duties thereof. There was included in this general news article some editorial afterthought which was regarded highly pertinent as referred to the interest and welfare of the city and county, especially of the city. The timeliness of the remarks of the News agent the dual office holding capacity of Mr. Holt has been emphasized through voluntary expressions of numbers of the citizens in approval of the News' view. It is not too much to assert that conscientious public opinion is shocked in its consideration of him whose regards for the proper performance of public duty appears to be measured rather by the number of offices he can dignify by their occupancy and the emoluments attached thereto rather than by an expectation of confidence of the public bestowed and the conscientiousness or duty well performed. The Central Railway owes you a debt which to be sure is not great—total of sixteen hundred and fifty or so dollars for supplies furnished to section foremen and section hands, and expressing the hope that I may be able to help you get your money. This I shall certainly keep trying to do until it is accomplished in some way. I have no interest in the matter beyond my official duty to the public that this company shall discharge its chartered duties of keeping its road in operation and that it shall pay all labor claims, boarding house bills, merchants like yourself for supplies, farmers and saw mill men who haul out ties and other timber, and all that class of local claims that have been incurred in construction, maintaining and operating the railroad in the discharge of its duties to the public.

GOVERNOR FRIEND TO POOR

offensive to Messrs. Carter and Sharp.

The News believes that the governor, when he engaged his attention to the matter of the application of the bondsmen for a receivership, was actuated only by honorable motives when he caused the state to offer interference. On account of the distortions of a republican press in their dissemination of the alleged facts connected with this receivership, the News heretofore publishes two letters, one from Ben Byers of Lehigh, directed to Governor Haskell and one from the return answer of the governor to Mr. Byers.

Honorable Governor, Guthrie, Okla. Your Honor—I have read an article in the Daily Oklahoman of June 2nd that you are taking a hold on the receivership of the Oklahoma Central railway and that you will appoint a state receiver instead of a federal receiver. I thank you for the step you have taken as I would rather trust it to your honor than any one else—they owe me \$1,530 for supplies furnished to section foremen and section hands and I feel confident if your honor will take a hold of it that I as well as the rest whom they owe in the state of Oklahoma will be protected, and I thank you and approve of your action. Mr. Miles the local station agent of the Oklahoma Central was around gathering signatures from boarding houses as well as some employees, asking them to sign a paper in which they denounce the governor's action and asking them to sign to maintain a federal receiver. I refused to sign, I hope you will stand by your decision and take it in your hand and see that the employees, boarding house keepers, and merchants who furnished them merchandise, will get their money justly coming to them. Again thanking you for your action, I am,

Yours very respectfully,

BEN BYERS.

Mr. Ben Byers, Lehigh, Okla. Dear Sir—Yours of the sixth instant was a little late in reaching me, due no doubt to delayed train service.

I note that you say that the Oklahoma Central Railway owes you a debt which to be sure is not great—total of sixteen hundred and fifty or so dollars for supplies furnished to section foremen and section hands, and expressing the hope that I may be able to help you get your money. This I shall certainly keep trying to do until it is accomplished in some way. I have no interest in the matter beyond my official duty to the public that this company shall discharge its chartered duties of keeping its road in operation and that it shall pay all labor claims, boarding house bills, merchants like yourself for supplies, farmers and saw mill men who haul out ties and other timber, and all that class of local claims that have been incurred in construction, maintaining and operating the railroad in the discharge of its duties to the public.

tion foremen and section hands, and expressing the hope that I may be able to help you get your money. This I shall certainly keep trying to do until it is accomplished in some way. I have no interest in the matter beyond my official duty to the public that this company shall discharge its chartered duties of keeping its road in operation and that it shall pay all labor claims, boarding house bills, merchants like yourself for supplies, farmers and saw mill men who haul out ties and other timber, and all that class of local claims that have been incurred in construction, maintaining and operating the railroad in the discharge of its duties to the public.

Knowing that there are considerably over one hundred thousand dollars of this kind of claims, nearly eighty thousand of them due for labor and board bills to several hundred of our citizens, generally in small amounts, and that each one of these needy creditors alone is not able to enforce his own protection and collect his own claim, at least without great loss to himself, I have taken the position as governor of the state, we will not tolerate any such treatment of the public or of the men whose labor and material has gone to create or operate the property.

The newspapers in some instances have deliberately lied about the facts.

In this case, the reason they were paid so much so or because they always receive everything that is done for them in general.

At the hearing a couple of weeks ago at Norman, where I had sent the assistant attorney general, Mr. Henshaw, to protect the interests of just such people as yourself, he took no decisive action because, as he reported to me, Mr. Carter assured him positively that he had arrangements made for money to pay all such bills and would be ready to pay them within twenty-four hours after he got home. Henshaw believed this story and did not take further procedure. The truth is as I am now led to believe, that Carter had no money in sight to pay the bills, but had, as I am informed, joined in an arrangement to have a receiver appointed by the United States court on the petition of some Chicago promoters and Trust Company men, in case he could get the State court to drop the case. The result seemed to justify this information as the Chicago people the very next day secured the appointment of a receiver in the United States court at McAlester, but from long years practice as a lawyer and having had claims and collections in several such cases, I know that the State court has invariably given more prompt and careful consideration to the small claimants in such cases.

I notice that one newspaper in particular has said that I had been an attorney in such a case at Lima, Ohio, a few years ago and that the small claimants did not get their pay in that case, the facts are that I did have a receiver appointed in May, eighteen hundred and ninety-five in the State court at Lima, Ohio, for a bankrupt railroad. The records

show that on the third day after the receiver was appointed, I, as attorney for the receiver, immediately reposed showing seventy odd thousand dollars due for labor, boarding house and grocery store claims and the same day obtained an order from the State court to issue and sell certificates and pay these claims. The order required two weeks' notice to be given in a newspaper, but even with this two weeks delay the certificates were sold and every dollar of that kind of debts paid within a total of twenty-seven days from the day the receiver was appointed, although the bond holders and large creditors continued the case in court for forty-four months. In my experience as a lawyer I had a number of just such cases under my charge and in only one case did the labor bills ever wait payment over sixty days.

The newspapers tell you that the governor is trying to impose on this poor, innocent railroad. We are informed by those who have examined the records that this company owes a total of about six hundred thousand dollars of open accounts including such as yourself and labor claims, material bills, etc. In addition to this it has outstanding about three million dollars face value of bonds issued through a Chicago Trust Company as trustee, that men connected with this Trust Company are interested in promoting the railroad, that they are the very men who are trying to get this road out of the hands of the state court, that for the three million dollars of bonds they have put only a little over two million dollars of money into the property, that they are trying in the United States court to make the bonds stick as first lien on the property ahead of other claims for the full amount of the face of the bonds and accrued interest. Do you believe that these Chicago speculators are trying to get your money if you and other local creditors like yourself, or trying to get the whole property for themselves? This question ought to be plain enough to your neighbors as it seems to be already to you, judging from your letter.

The plaintiff in the state court case only had a small claim, but the courts of Oklahoma give a small

creditor the right of protection just the same as a large creditor, otherwise what hope would there be for five or six hundred small creditors like yourself and the laboring men and boarding house keepers but the other cross petitioners who had large claims from twenty thousand dollars up, had agreed that they would consent that the labor and other small claims should be provided for at once and they would have been paid within two or three weeks at the latest and will be yet in case the State court retains the custody of the property, as I believe it will.

I am charged with imposing on the great railroad interests of the State, this is not true when they obey the law and do a straight business, but it is the duty of every

officer of this state, myself included, to protect the weak against the strong. The Oklahoma Central railroad property has been built and operated by our citizens furnishing material and labor, to the extent of thousands of dollars and I will not permit that property nor its Trust Company promoters to escape without paying its local creditors who desire protection, if it is possible to protect them, and I have no doubt that we will succeed. Promoters of the enterprise and foreign capital are welcome in Oklahoma, but they must deal honest and square with our people.

MADILL LOSES TO ADA

In a Sixteen Inning Tug the Sister
City Gives Up the Ghost at the
Rate of 2 to 8.

"Whoop-pee! that was a good game,
wasn't Bill?"

"Yep" was the reply, "the best I
ever saw, and I have seen a thou-
sand," added the fan who had been
addressed by Bill.

Everybody was surprised, for the
band boys were out of town, and a
good many folk had gone to the pic-
nic at Francis and there was a sort
of unexpressed sentiment that Ada
would get licked for Sam LeFevre
is still sick, and everyone knew Ada
was -by a splendid pitcher. Not so,
though, Ada beat 'em out in as clean
a game as was ever performed. Both
teams played like clock work says
Mr. Torbett, the best judge of good
ball in Oklahoma and who by the
way enjoys it better than he judges
it. The wonderful feature was that
in 16 innings only one error was
made. At the close of the night inning the score
was 2 and 2. The next inning was
played in the Chicago professional
way. No score. The next, would
surely tell the story, so another
eastern professional air was put on
display again. No score this could
not happen every time so another
professional was pulled off. No
score and on and on until the six-
teenth, when Ada was at the bat
there were two out, two on bases
and Gorman at the plate. The end
is near. Something happened. A safe
clean hit, that made center field take
to his heels, brought an Ada man in
from second. Bat up, Franck yells.
Ada had won the hardest fought con-
test ever waged on an Oklahoma dia-
mond. Ellis is to be congratulated
for holding the foe down to this many
hits (6) during the last eight innings.
This was the first of a series of three
games. Another is being played this
afternoon, and a third will be pulled
off tomorrow.

Oklahoma City, Okla., June 15, 1908
Messrs. Hardin and Jones.
Ada, Oklahoma,
Gentlemen:
On June 4th I called on the late Sheriff
Garrison of Oklahoma City to induce him to
continue the \$1,000 accident policy which he
had carried with this company for five
years.
He stated that he had given the matter
careful consideration and had decided to
discontinue this protection for the present.
On June 5th Mr. Garrison was shot and
killed by a negro whom he was attempting to
capture.
The sheriff of Kay Co. Oklahoma, was
killed this spring by being thrown from a
moving passenger train at Ponca City. He had
written this company for rates one day before.
If the sheriff and other officers in
your county do not carry this important
protection, why not?

Confederate veterans will please
bear in mind that our memorial ser-
vice for our illustrious Gen. Stephen
D. Lee, late deceased commander,
will be held at the First Presbyterian
church Sunday the 28th at 2:30 p.
m. and you are hereby requested to
meet at our headquarters at 2 p. m.
sharp to march to the church in sol-
dier's style. All take notice and gov-
ern yourselves accordingly. The pro-
gram has been arranged for speakers
music, etc.
Everybody invited.

Miss Grace Reed.
On Wednesday afternoon at 3:30
Miss Grace Reed, age 17 years died
at the home of her mother, Mrs. A.
D. Reed, on West 12th street. She
was stricken with typhoid fever
about two weeks ago, and from the
beginning her condition was consid-
ered serious. The fight against the
end was waged heroically, but He
who gave her life, willed that the
young spirit should no longer dwell
in the world of strife and affliction.

The deceased was a favorite
among her many girl associates and
friends. She was an earnest worker
in the city high school last term and
after the vacation begun she was a
conscientious employee in the office
of the Cement Co. near the city. Her
mind was brilliant, her life pure as
snow and like sunshine, her man-
ner and her countenance brightened
the home of her mother and the heart
of her companions. Those who knew
her mourn her soul's departure for
she was loved of them.
The remains were embalmed and
were taken to Coalgate this morning
for interment.

If you want your horse shod, bug-
gy repaired or lawn mower sharp-
ened, phone 369.

Revival Increases in Interest.
The revival at the Second Metho-
dist church in North Ada is con-
tinually increasing in interest. Last
night Bro. Jordan gave an entirely
new version of the "Ten Virgins" and
spoke the truth straight from the
shoulder. He had the undivided at-
tention of the congregation and at
the close of the service six came to
the altar and four were converted. It
was a very precious meeting and one

long to be remembered.
Tonight the evangelist will take for
his theme, "Who Is the Man in the
Crowd." Will not every young person
in the town come out tonight and
hear Brother Jordan? He is certain-
ly the young people's friend and
his preaching will be a blessing to
you. Let the southside people come
over and help us. It is a good long
walk but it will pay you.
Service begins promptly at 8:30
o'clock.

Everybody Coming.
From all accounts, everybody and
their dog will be in Ada on July
4th to celebrate the birthday of our
nation. We can learn of no other
celebration in a radius of many miles
of Ada, on that day and they are
coming. So the idea is to get ready
for them. Let's not do anything by
halves. Plenty to eat and abundance
of water is the main assurance of a
successful day.
